

New Drought Restrictions Take Effect April 3, 2009

The Southwest Florida Water Management District's Governing Board has voted to enact Modified Phase IV (or Critical) Water Shortage restrictions for potable water use in the Tampa Bay Water service area. These are the District's highest level of water shortage measures. For information on how these restrictions effect our District and your home, please go to [www.swfwmd.state.fl.us/](http://www.swfwmd.state.fl.us/).
